

ITINERARY

Day 1 - Arrive in Mexico City late afternoon. We will meet at the airport and drive to the Dreaming House in our private van. The following days are our guidelines for the activities. Sometimes we are fortunate to be able to do other special activities. In this case the cost will be extra and we will not know until we are there. Please bring extra money if you think you might want to be included. You may choose to join us but you are not obligated.

Day 2 - 5 -

We spend the next four days exploring and moving through the ancient site. We spend time working with the group and individually. We will work through the energetic body of Teotihuacan which follows the design as the body of the two-headed serpent, the body of the avatar, Quetzalcoatl, the one who transcended from an earthly serpent in the lower chakras up to a Quetzalcoatl bird which symbolized spiritual freedom. We begin at the temple of Quetzalcoatl and move onto the Avenue of the Dead traveling toward the Pyramid of the Moon. As we ascend over the four days of our journey you will address the energetic aspect of being human. Our physical body, our emotions, the mind and spirit we focus on each as they are represented through the elements of Earth, Air, Fire and Water. The journey through the body of Teotihuacan leads to a reemergence from the deep introspection of the Avenue through the other end which is the other mouth of the snake on the altar in front of the Pyramid of the Moon. The next step is to join the presence and timeless power of the ancient masters in the Temple of the Jaguars and the Palace of the Butterflies preparing us for our reconnection with source atop the Pyramid of the Sun. A journey to Teotihuacan is an opening to worlds that for most of us have been shrouded by our investment in our beliefs about the world and ourselves.

Day 6 - We leave the Dreaming House in our private van to the airport early in the morning. On the way we stop and either the house/museum of Frieda Kahlo or the Basilica of Guadalupe. We arrive at the airport at 4 - 4:30PM.
